CONTENTS

Section 1 OFFICIAL MAP AND PLAN SYSTEMS – VICTORIA 1 - 1

Section 2 STANDARDISATION AND CALIBRATION SERVICES 2 - 1
Standardisation of surveyor’s tapes and bands 2 - 1
Calibration of levelling staves 2 - 6
Calibration and standardisation of Electronic Measuring Equipment 2 – 6
EDM calibration baselines 2 – 9

Section 3 SURVEY INFORMATION SOURCES 3 - 1

Section 4 PROCLAIMED SURVEY AREAS 4 - 1
Surveys made within or contiguous to Proclaimed Survey Areas 4 - 1
Establishment of Proclaimed Survey Areas 4 - 1
Maps and Tables of Proclaimed Survey Areas 4 – 3

Section 5 SURVEY MARKS 5 - 1
Cadastral surveys 5 - 1
Permanent Marks 5 - 1
Reference Marks 5 - 4
Permanent Mark Sketch Plans 5 - 5
State Survey Mark Numbering System 5 - 7

Section 6 DESCRIPTIONS OF OCCUPATION 6 - 1
Examples of fences 6 - 1
Abbreviations associated with fencing 6 - 1
Fence symbols 6 - 2
Types of fences 6 – 2
Photographic examples of fences 6 – 4

Section 7 CADASTRAL SURVEYS 7 – 1
Existing data to be obtained 7 – 1
Survey Marks and Reference Marks 7 – 1
Measurements to occupation, kerbs and channels 7 – 3
Field survey 7 – 4
Field notes 7 – 7
Work sheets 7 – 7
Recording 7 – 7
Abstracts of Field Notes and Supplementary Abstracts of Field Notes 7 – 8
Plan preparation 7 – 11
Licensed Surveyors Report 7 – 14
Boundaries – natural 7 – 21
Boundaries – artificial 7 – 25
Roads and water frontages – administration in Victoria 7 – 27
Bibliography 7 – 30
Annex 1 - Standard parcel indentifiers 7 – 32

Section 8 LEVELLING 8 - 1
The Australian Height Datum 8 - 1
Other Level Datums 8 - 4
Bench Marks 8 – 9
Procedures 8 - 12
Definitions 8 – 12
Choice of techniques 8 – 16

SURVEY PRACTICE HANDBOOK – VICTORIA
PART 2 2000
Procedures (continued)

Phenomena affecting levelling 8 - 16
Differential levelling 8 - 17
Levelling staves 8 - 19
Second order levelling 8 - 21
Third order levelling 8 - 23
Millimeter levelling 8 - 24
Centimeter levelling 8 - 24
Staff stations 8 - 25
Basic booking procedures 8 - 25
Reduction of levels 8 - 26
Reciprocal levelling 8 - 26
Special techniques and equipment 8 - 27
Errors in differential levelling 8 - 28
Satellite based levelling 8 - 30
Trigonometric levelling 8 - 30
Barometric levelling 8 - 33
Other methods 8 - 35
Digital levelling 8 - 37
Annexes 1 to 6 – recording and reducing 8 - 38

Section 9 GUIDELINES FOR FEATURE SURVEYS AND PLANS 9 - 1

Section 10 QUALITY ASSURANCE 10 - 1
What is a management system? 10 - 1
Practice administration 10 - 1
Development of a Quality Management System 10 - 3
Third Party Certification 10 - 3

Section 11 OCCUPATIONAL HEALTH AND SAFETY 11 - 1

Section 12 GPS SURVEYING 12 - 1
GPS history and basics 12 - 1
Accuracy standards 12 - 3
GPS survey practice 12 - 4
GPSNet 12 - 4
Geocentric Datum of Australia 12 - 9

Section 13 UNITS SYMBOLS AND CONVERSION FACTORS 13 - 1
